MSL-6066

Synthetic Food Grade Penetrating Lubricant

MSL-6066 is a synthetic penetrating spray lubricant that meets H1 requirements for lubricants with incidental food contact. It cleans, frees stuck parts, and provides long-lasting, non-gumming lubrication.

In addition, MSL-6066 helps to protect metal parts from rust and corrosion.

ATTRIBUTES

- Penetrates and cleans stuck parts
- High film strength
- Excellent rust control and water separation
- Removes rust and deposits
- Outstanding stability and Low volatility

TYPICAL LUBRICANT PROPERTIES

MSL-6066 Grades	6066
Viscosity Index	119
Viscosity cSt @ 40°C	15.1
Viscosity cSt @ 100°C	3.2
Flash Point °F	295
Pour Point °F (°C)	-22
Color	<.5
Copper Corrosion, 24 Hr	1a
Rust Test:	Pass
Demulsibility, 130°F, 30 Min	40/40/0
