MSL-C13 Heat Transfer Oil

MSL-C13 heat transfer oil is designed for use up to 600°F. .MSL-C13 is a low cost solution where heat transfer applications require an environmentally friendly fluid. Iis non-toxic/non-hazardous.

ATTRIBUTES

- Excellent thermal and oxidative stability
- Very low volatility and vapor pressures
- Excellent deposit control to keep system clean
- Environmentally friendly
- Non-toxic/Non-hazardous

TYPICAL LUBRICANT PROPERTIES

MSL-C13 Grades	20	40
Viscosity cSt @ 40°C	20.3	40
Viscosity cSt @ 100°C	4	6.5
Flash Point °F (°C)	420 (216)	405 (207)
Demulsibility, 130°F, 30min	40/40/0	40/40/0
Copper Corrosion, 24 Hr	1a	1a
Foam Sequence I, II, III	0/0/0	0/0/0
